

Exploring The Last Frontier

ALASKA AIR TAXI, LLC

Adventures of a Lifetime!

Come Fly with Alaska Air Taxi

Established in 1989, Alaska Air Taxi, LLC is a year-round air service that caters to the tourist industry as well as a charter service for rural Alaskans. Our main base of operation is located at Lake Hood Seaplane Base in Anchorage with our second base on the North Slope at Prudhoe Bay. We operate floats and wheels for our summer activities and skis for winter flying. Alaska Air Taxi also operates twin-engine aircraft with IFR capability.

Alaska Air Taxi specializes in Bear Viewing and Flight-seeing Tours.

Come and see the mighty bears of Alaska! Alaska Air Taxi flies to some of the most beautiful lakes and streams to view these magnificent animals up close and personal. Experience the bears in their natural habitat and see their powerful fishing techniques!

Lake Clark Brown Bear Tour

Take a scenic flight along Cook Inlet into Lake Clark National Park. Known as the "Alaskan Alps", this is where the Alaska and Aleutian Ranges meet! This 4 million acre park is home to the Illiamna and Redoubt Volcanoes, which are visible on a clear day. Upon landing, an experienced guide will greet you and take you to view these magnificent bears in their natural habitat. You may witness these huge grizzlies fishing for salmon, swimming playfully with each other or just plain frolicking with their young. Enjoy a lodge-style lunch in one of the most beautiful settings in the world! On your return flight back to Anchorage, we'll look for wildlife such as beluga whales, moose, and trumpeter swans just to name a few!

Brooks Falls

You'll view these extraordinary giants as they grab, chase and scurry for the feisty salmon shooting up the rocky falls. Grizzlies here at Brooks are not just great fishermen, they can literally catch the "flying" fish in mid-air. These will be the pictures of a lifetime! During your walk back to the floatplane, keep your eyes open and cameras ready as the sightings of bears never seem to end in this bear-abundant land. Lunch is included for this excursion. We recommend you bring extra film.

Come and let Alaska Air Taxi fly you to breathtaking glaciers, pristine lakes and untouched mountains! Have the opportunity to see mountain goats, sheep and moose in some of the most beautiful backdrops in the world. There is no other place on earth as magnificent as Alaska!

Knik Glacier & Wildlife Tour

Fly along the Chugach Mountains and the Knik Arm and have the opportunity to see a variety of Alaskan wildlife such as dall sheep, mountain goats, moose and black bears. Take in the beauty of the Colony and Knik Glaciers, up close and personal!

Mt. McKinley Tour

Fly with us to see the tallest mountain in North America! Experience the majestic mountains surrounding Denali and brilliant glacier pools of blue scattered through the Kahiltna glacier. See ice falls and crevasses that seem to go on forever! Weather permitting, we'll make a stop for some great photo opportunities.

Alaska Air Taxi can arrange for Custom Personal Tours throughout the state of Alaska and is considering adding Polar Bear Viewing to our North Slope/Prudhoe Bay activities for the months of September and October.
